

Remote Telehealth Medical Practitioners Needed for COVID-19 Support

Licensed Medical Practitioners (MD's, DO's, NPs, PAs) needed on an emergency basis to take Telehealth Visits remotely. Remote healthcare is getting an additional push due to COVID-19, and we need additional help to support online visits.

This would be a temporary hire for emergency purposes, with the option to be get fully credentialed with us should you want to continue the opportunity after this urgent healthcare need has passed. An internet connection is required (certain connection speeds may apply.)

- Competitive compensation
- Flexible schedule
- Work remotely

Job Description:

We are looking for a Medical Providers to diagnose and treat health conditions, as well as promote good health practices. As a front-line medical provider, you'll be our go-to person for ensuring the best patient care possible. The job description includes conducting online examinations and overseeing patients' health. You'll be both a health practitioner and an educator, supporting disease prevention practices and helping people lead healthy lives.

You should have experience in one of the following specialties: acute care, neonatal care, pediatrics, emergency medicine, cardiology, family health, women's health or psychiatry. Patience, problem-solving skills and communication ability are important. If you're dedicated to advancing your knowledge and clinical expertise through research and professional discourse, we'd like to consider you for this opportunity.

Responsibilities:

- Examine patients and their medical records
- Order and study diagnostic tests (blood tests, X-rays etc.)
- Diagnose health conditions and illnesses
- Propose treatments for chronic and infectious diseases
- Prescribe medications
- Maintain accurate records and schedules
- Inform patients about their health conditions and prescribed medications
- Educate patients and their family members on diseases, epidemics and prevention
- Oversee patients' overall health while continuing communication with the patient's PCP
- Promote good health practices
